

# K = 3 regimes: the overlap parameter across the network sizes of the design

n = 20

n = 50

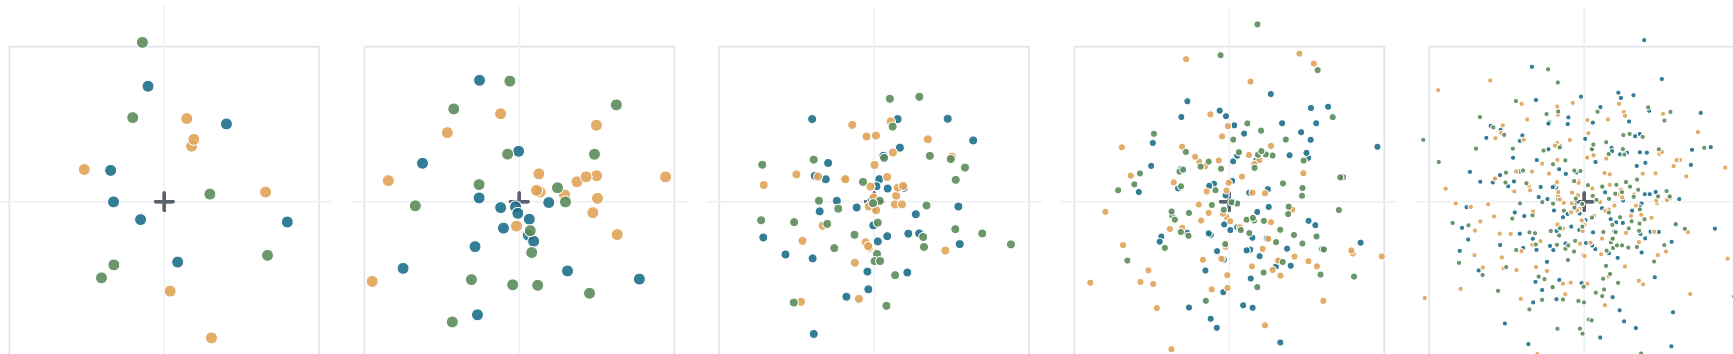

n = 100

n = 200

n = 400

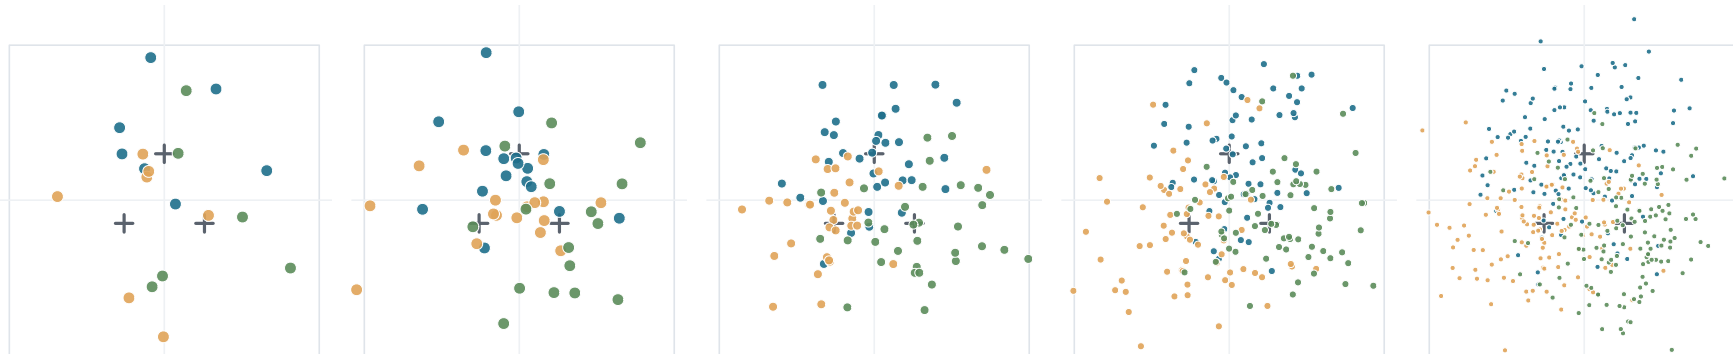

**omega = 0**

0.00 sd apart

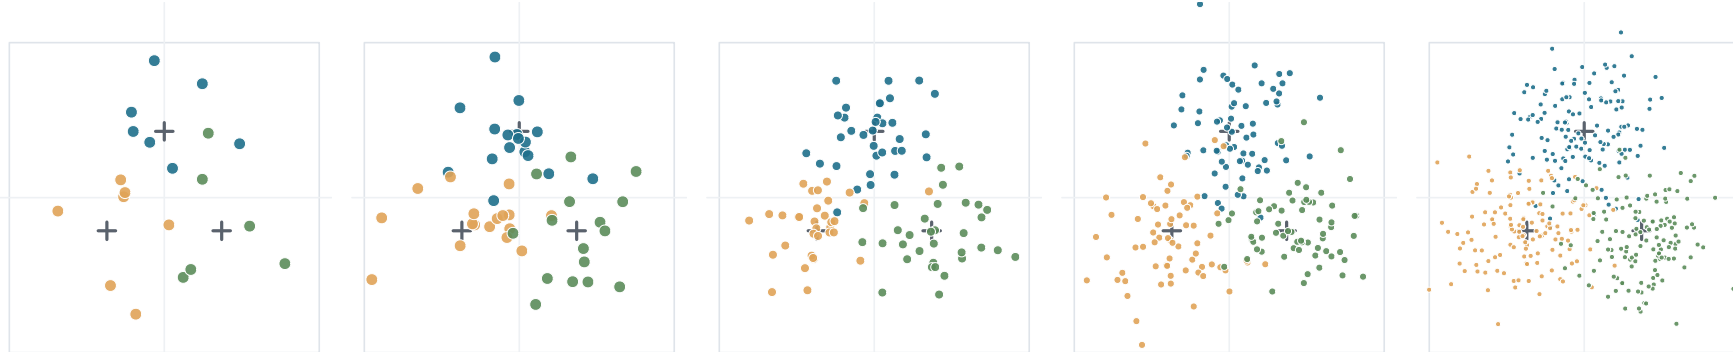

**omega = 0.7**

1.63 sd apart

**omega = 1**

3.16 sd apart

centres  $2 \times \omega$  apart, total spatial variance held fixed at 1.067; crosses are the true centres, colour the true regime
